RMAX. TV PRODUCTIONS TO DONATE ITS WARRIOR WELLNESS™ PROGRAM TO EVERY VETERAN MEDICAL CENTER IN THE US

Fitness Innovators Pay Their Utmost Respect to the American Warriors

Atlanta, Georgia -- January 24, 2006 -- Based out of Atlanta, RMAX.tv Productions has announced the launch of its new campaign, **Veteran Warrior Wellness**, which will benefit veterans for their great service and enormous heroism. Described by Washington Post's Marty Gallaher, as "*an effective fitness methodology that gets results!*" the **Warrior Wellness™, Six Degrees of Freedom™** program has been successfully tested and recognized as *life-changing* even by people who suffered from various health complications. RMAX.tv Productions has started sending free copies of its best program, **Warrior Wellness™, Six Degrees of Freedom™**, to every Veteran Medical Center located throughout the country, in the hopes to help our military heroes recover better and more efficiently. RMAX.tv Productions will also offer to veterans 5 free passes to each of its upcoming Fitness and Martial Arts seminars within the next 5 years. In addition, veterans are encouraged to join in and participate in RMAX.tv Productions' free, on-line forum specifically created for them at <http://www.rmaxinternational.com/forum/>

RMAX.tv Productions has been a major player in the Wellness and Fitness Industry with its highly-acclaimed product line since 1997, including the legendary **Clubbell®** equipment. Co-founded by Scott Sonnon, inducted in The International Martial Arts Hall of Fame and The National Fitness Hall of Fame, and the Founder of the RMAX Flow-Fighting Systems™, referred to as "*one of the most important figures in the tactical training community*" by Mike Gillette, President of Threat Metrics, former Training Director of the National Law Enforcement and Security Institute, former Field Training Officer, Tactical Team Commander, and Chief of Police; and credited by Matt Larsen, NCOIC U.S. Army Combatives, as "*A pioneer in the application of the newest sports science*"; RMAX.tv Productions has revolutionized the fitness industry by marking the official end of the linear training approach. Back in the day, Mr. Sonnon was admitted into the former Soviet Union as the first American to train with the SU Special Forces and learn their carefully-concealed-for-generations techniques and unique approach to martial arts and general fitness. He also worked with the distinguished coaches of the Soviet elite Olympic teams.
